

**While i only have been on my initial consultation with Dr. Berstein, I am thoroughly convinced this is what i have been searching for, the help i desperately need. Not only was his staff super helpful and friendly, the atmosphere of the office was very welcoming and comfortable. Not like any of the other doctor or medical offices I have been in before. Dr Berstein and his intern listened and looked at me. The tests he performed to try and decide where my issues were stemming from were amazing and seem already to be accurate to me. I look forward to going back and starting the process of healing and feeling as i should! Thank you for giving me hope!!**

**I only had one session at AWC so far, and my experience was excellent. I had a very thorough evaluation and the staff and Dr. Bernstein are very kind people. I received a quick chiropractic treatment with great result. Also, although I could only start taking my new supplements at night - recommended by Dr. Bernstein - I have experienced a significant improvement the next morning. My body was a lot less stiff, I could actually walk out from my bed instead of crawling - as I did in the last over a year. I highly recommend AWC for everyone who is looking for healing from the core.**

**Everyone at Advance Wellness Center is awesome. The staff is very friendly and helpful. They all genuinely care about your wellbeing. Dr. Bernstein always takes time to listen to your concerns and never rushes through an appointment. When I started going to Dr. Bernstein, I was allergic to so many basic things found in most food. It was extremely difficult to eat out and have more than a plain salad with no dressing. After a couple months of treatment I went into Whole Foods to the hot bar and realized I had my choice of almost everything there without any worries of it making me sick. I nearly cried. Dr. Bernstein has simplified my diet. No more lugging snacks and food with me when I think I am going to be away from the house more than a couple of hours.**

**I was a client at the Advanced Wellness Center more than a decade ago prior to relocating to another state. After becoming ill with ailments unlike those I had previously experienced I decided to return to benefit from Dr. Bernstein's unique, capable and honest approach. As before I expected to receive nutritional and physiological care that would enable my body to reach peak performance. Once again I am pleased because his rare and innovative performance has allowed me to experience a diminished need for care takers and supportive services. As I measure my steady improvement I maintain reason to believe that his integrated care plan for me that addresses my medical, nutritional, emotional and social needs will continue to result in my body's ability to function with a far better quality of life along with maximized independence. Unlike standard medical intervention, Dr. Bernstein, assesses the root cause of disease, how its progression affects the body and from there determines how to address ailments. I am grateful for his knowledge of how to reverse and block illness, his shared perception concerning the far reaching benefits of organ exercises and his concern. I appreciate the staff for their skill and courtesy. I am fortunate that my family is aware of the Advanced Wellness Center's key to my health. It is for this reason that they support my decision to maintain a clear vision concerning my body's need for proper management at the Advanced Wellness Center.**

**Holistic doctors like Dr David are greatly sought out these days, especially ones who are honest and who want to see healing in their patients, like Dr. David. I read an article online saying that most primary Care physicians just arent able to diagnose ailments like they used to either because they are overwhelmed with too many clients or because they dont have the same extensive background in diagnosing and treating illnesses. Im excited about seeing a doctor whom I know will take the time to get me the superior treatment I need. This office cares about you an their follow up is unquestionably fantastic. michelle gold**

**I have been coming to Advanced Wellness Center for about 5 years, and really appreciate both the expertise and the caring manner of Dr. Bernstein and his staff! Many times, a health issue will be targeted and resolved way before lab results show the same thing, or a more "in the box" doctor will discover it. It is amazing to me to watch the digital response technique that Dr. Bernstein uses to show exactly where in my body the energy flow is blocked, and then listen to and apply the supplements and/or other lifestyle changes needed to get the energy flowing again. Over the years I have grown to trust this office, and love the friendly family-like atmosphere at AWC. I plan on continuing here for years to come!!**

**Dr Bernstein and his staff are thoughtful, caring people who genuinely listen, so rare in a health care facility. Wait times are minimal, good value for financial outlay in the lengthy amount of time spent per patient and patient feedback is welcomed and encouraged, again, not the norm. I had been to many "conventional" doctors who barely heard my complaints and tried to send me on my way with a cornucopia of prescription meds. I believe in finding the cause of a problem rather than just treating the symptoms. Glad I found them and I very much appreciate all they are doing to attempt to get my life back to normal.**

**I think Advanced Wellness Center is much too expensive!!! The DRT was very interesting, however, I don't intend to pay another \$175 to get how the results affect me. THE RESULTS SHOULD HAVE BEEN INCLUDED IN THE FIRST VISIT. Also, The ZYTO, which is listed on the sheet as part of the first visit was not used on me. How does the ZYTO differ from the DRT? I don't feel I gained anything from my visit. I feel I need something for the high cost of my first visit!**

THE RESULTS SHOULD HAVE BEEN INCLUDED IN THE FIRST VISIT. Also, The ZYTO, which is listed on the sheet as part of the first visit was not used on me. How does the ZYTO differ from the DRT? I don't feel I gained anything from my visit. I feel I need something for the high cost of my first visit!

**Dr. Bernstein is a absolute miracle to our family!! Our daughter contracted somehow someway MRSA at 8 mths old and it was a parents worst nightmare ! She would get it back every 4 months we've tried everything !!! By the grace of God we were referred to dr. Bernstein by a friend that swears by him . I questioned what he did and not to mention he was 4 hrs from us . I'm a mother that tried everything I was mentally exhausted from it , I just wanted my daughter to not have this ! Well we made a appointment with DR. Bernstein and got in the following week . He did testing & put a regimen together for her and she has been MRSA free and healthy:-)))) I'm so thankful for God leading us there .. Thank you Dr. Bernstein!!!**

**Advanced Wellness Center is very clean and quiet. I found the administrative staff and nurses very helpful and professional. Waiting time was good. Dr. Bernstein was pleasant and professional. I'm very much a believer in not using conventional medication when I can so it was important to me to find someone who could understand that, which Dr. Bernstein and his team do. My actual ailment, though, was not even looked at which surprised me. I was asked to put my hand on a sort of large hand 'mouse' while my whole body was scanned a few times, impressive; but the results were not explained to me and when I asked for clarification it didn't seem like anyone really knew how to read the results. In addition, the patent device used by Dr. Bernstein to 'read' my body ailments while holding my little finger and thumb together, well, I don't know, I might be wrong and maybe it really does 'read' the body, but it was obvious that after a while my little finger would get numb and weaker holding it in the same way for a long time. On the whole it was a pleasant experience. The herbal medication is expensive.**

**Dr. Bernstein and his entire staff are awesome! They are compassionate people who serve their patients with great care, concern and dedication. I have been a patient for approximately 13 years and depend on Doctor Bernstein's abilities in healing me from a simple cold to hair loss, gut issues and muscular problems. Dr. Bernstein has taught me so much about the importance of eating properly to remain healthy and disease free. His DRT method of diagnosing health issues has proven itself over and over again. He is one of a kind and a true pioneer in the Functional Medical field. I pray for this practice as I don't know what I'd do without it!**

**Suddenly I developed severe joint pain and inflammation in my hands, knees and feet. My doctor referred me to an Orthopedic doctor who put me on prednisone and sent me to a Rheumatologist who was 99% sure I had Rheumatoid Arthritis and put me on strong medications, even though the blood work for arthritis came back negative. Previous to these problems, I have always been very healthy and took natural supplements for colds, flu, etc. so I did not want to continue to be on strong drugs that I knew would be harmful to my health in the future. After a few months of various doctors wanting to diagnose my problems with harmful drugs, with no relief with the swollen hands/feet (I couldn't make a fist and could barely hold my toothbrush in the morning, and the medications they had me on were keeping me awake, so along with the pain, I was losing sleep), a friend told me about Dr. Bernstein. I finally felt like there was a light at the end of the tunnel. Dr. Bernstein's intention is to find the CAUSE of the problem, not cover it up with drugs. It's amazing the improvements I have experienced since seeing Dr. Bernstein. My hands are no longer swollen, and my joints are 99% better. Most of my problems were caused by foods I thought were healthy (Gluten - wheat, oats, and many others). My appointments are always pleasant with everyone at Advanced Wellness; they are like family to me and they really care!! I would highly recommend Dr. Bernstein, and have, and they thank me all the time! Theresa**
